THE TEXT

[1] Morocco's aerospace industry has witnessed strong growth over the past two decades. In 2024, exports in aerospace industry exceeded 30 billion dirhams, which is a 15% increase compared to 2023. This growth is the result of two main factors: Morocco expanded its export markets beyond Europe to the United States and Asia, and production increased in major industrial zones such as Casablanca Midparc and the Tanger Free Zone.

[2] This development is the result of long-term planning under the Industrial Acceleration Plan (PAI) since its launch in 2014. Today, the industry employs more than 25000 people. Local, specialized training institutions, such as the Institute of Aeronautical Professions (IMA), have played a major role in preparing skilled workers. More than 38% of the workforce is now highly qualified thanks to the diverse training programs.

[3] In February, 2026, King Mohammed VI launched the establishment of a new Safran Group factory in Nouacer. The factory is specialized in producing aircraft landing gear systems. Safran has been present in Morocco for 26 years now, and employs about 5000 people in 10 different factories; 70% of the employees are women. The investment in this new project is expected to exceed 280 million euros and will create around 500 direct jobs. The factory will operate entirely on carbon-free energy, in line with Morocco's environmental and green industries policy.

Aircraft landing gear systems

[4] Ryad Mezzour, Minister of Industry and Trade, emphasized that the partnership with Safran has helped transfer expertise in aerospace industry, develop local skills, and strengthen Morocco's role in this field. The strategic location of Morocco will allow Safran to meet growing global demand for aircraft and bring production closer to European manufacturers such as Airbus and Boeing.

[5] To reduce its dependence on traditional sectors such as agriculture, Morocco is developing a network of high-technology industries. The aerospace sector creates high-skilled and stable jobs, encourages technology transfer, and supports the growth of local enterprises. "We warmly thank the Moroccan government for supporting these major industrial projects. By strengthening its presence in the country, Safran demonstrates its commitment to developing the Moroccan aerospace industry," said Safran CEO Olivier Andriès.

I. COMPREHENSION (15 POINTS)
BASE ALL YOUR ANSWERS ON THE TEXT.

1 pt	A. CHOOSE THE BEST ANSWER.	
------	-----------------------------------	---

The best title for this text is:

- a. Safran: The Aerospace Giant
- b. Morocco's Booming Aerospace Industry
- c. New Employment Opportunities in Morocco

The best answer is:

1 pt	B. COMPLETE THE CHART WITH INFORMATION FROM THE TEXT.	
------	--	---

Dates/Figures	What they refer to
38%	
2026	

		✂
NS 12	موضوع الامتحان الوطني الموحد للبكالوريا - الدورة العادية 2026 - المادة : اللغة الإنجليزية التخصص : كل مسالك الشعب العلمية والتقنية والأصيلة	الصفحة 10 / 4

3 pts	C. ARE THESE STATEMENTS TRUE OR FALSE? JUSTIFY.	
-------	--	---

1. The aerospace industry in Morocco started before 2024.
.....
2. The Institute of Aeronautical Professions is an international training institution.
.....
3. The majority of Safran's employees are men.
.....

3 pts	D. ANSWER THESE QUESTIONS.
-------	-----------------------------------

1. What will the new Safran factory in Nouacer produce?
.....
2. What will help Safran meet the growing global demand?
.....
3. How does Morocco reduce its dependence on traditional sectors?
.....
